Terms – Please Read Carefully

- A link to the RedShift web site would be much appreciated if you use this free script.
- YOU MAY DISTRIBUTE THE ORIGINAL ZIPPED FILE AS MUCH AS YOU LIKE, SO LONG AS IT REMAINS INTACT WITH THIS SETUP GUIDE.
- IT IS ILLEGAL TO PASS THIS SCRIPT OFF AS YOUR OWN AND THIS KIND OF ATTITUDE WILL NOT BE TOLERATED!
- You agree to our full terms and conditions, located on our website. Contact us if you are unsure about what you can/can't do.

Instructions

1. Unzip the files.
2. Upload the RScounter.php and count.txt files and the images directory to your web site directory on your server. Make sure the count.txt file has read/write access (use CHMOD).
3. Edit you web site PHP files and enter the following where you would like the counter to appear:
   <? Include("RScounter.php"); ?>
4. Enjoy! Feel free to make suggestions for the script on our forums. Donations would be much appreciated and will mean we can add new features to this script!
